Subject: Dear Sir,

Dear Sir,

For all the monopolistic attitude of Microsoft and the proposed "settlement" is a joke for the millions of users.

With the donation of software to schools as "payment" Microsoft would actually be taking away market share from other vendors and building a stronger monopolistic position. The real cost to them for the settlement is ZERO. Market value of the software has no meaning here.

We the people may be dumb but we aint stupid. The settlement reeks of favoritism. In the name of "justice" you will actually be wiping out a good many companies and their future.

WHY are you treating Microsoft as "above the law". Change of Government = Change of heart ? that too from the Justice system ? What message are you sending to the world ?

Regards

Rajesh Motwani
